| Packaging | 32/1 Pcs (25mm x 15mt) 16/1 Pcs (50mm x 15mt) |

STARLINE

How does the anti-slip tape work?

Before applying anti-slip tapes, the surface must be cleaned. After the application surface is cleaned of dust, oil, polish, moisture and dirt, the tape should be cut to the required length. The greaseproof paper on the back is glued to the floor and firmly pressed onto the floor.

Where is the non-slip tape used?

Stone, marble, wood, granite, ceramic, porcelain and concrete surfaces such as steps, ramps, stairs, building entrances, boats, water sports equipment, recreational vehicles and playgrounds can apply.

In accordance with the Regulation on Health and Safety Measures to be Taken in the Workplace Buildings and Additions Published in the Official Gazette No. 25369, the floors of all workplaces covered by the Labor Law No. 4857 should be made as non-slip as possible.
