

Anti-Slip Tapes

Designed to reduce the risk of accidents that may occur on slippery, rough, or multi-level surfaces. Ideal for preventing accidents that could result from slipping. Creates an anti-slip floor effect to ensure walking safety. Resistant to water, cleaning agents, and UV rays. Thanks to its wear-resistant and weather-resistant structure, it is suitable for intensive and long-term use and has a long service life.

💡 Fluorescent Colored Anti-Slip Tapes

Enhances safety by providing high visibility in low-light conditions.

Maximizes noticeability in emergency exit areas, warehouse passageways, and areas used at night.
